

## Retractable stairway Junior

The Junior stairway is the ideal solution for retro fitting during renovation. It is easily installed into ready formed openings in the ceiling or can be fixed onto vertical faces such as mezzanine floors. The tread width is 14 cm, which is greater than most wooden floor ladders which have a tread depth of only 8 cm. The fully spring-suspended, aluminium, pressure die-cast construction is particularly easy to operate.

### Product quality

- Fully spring-suspended stair element
- Adjustable spring-suspension

### Stairs

- Aluminium retractable stairways
  - Treads: 20-38 cm, 14 cm deep (made of pressure die-casting)
  - Load bearing 200 kg per tread
- We always deliver the maximum possible tread width

### Ready-to-install with a wide range of accessories

- Attachment element: white coated multiplex backboard, 18 mm thick and 200 mm high
- Operating pole
- Telescopic handrail included
