

## INVITING LED White clip lamp

Ref. 57303

Inviting Light is a family designed by Bohman&Folienius for home lighting. Its main characteristic is that the light moves to accompany you according to the different needs and moods. The head of the lamp can be adjusted both in its horizontal and vertical axis, and the light is dimmable. By sliding forward and back the top circumference, you can change the intensity of the light and by rotating the same circumference, you can change the temperature of the colour. This luminaire is designed to illuminate work tables, reading spaces or shelves, as well as bed heads.

### Specifications
